

TO CHECK YOUR VISION DAILY...

**USE ONLY AS INSTRUCTED BY
YOUR OPHTHALMOLOGIST**

A BRIEF REMINDER: hold the card 14 inches from your eyes.
(Wear your glasses if needed for reading.)

Cover one eye, look at the center dot with the uncovered eye,
note any visual distortion, then repeat the procedure using your
other eye.

If the lines look irregular (wavy, blurred, empty or discolored),
promptly contact our ophthalmologist.
